THE NEWS OF THE WEEK.

A Daily Resume of Latest Happenings.

JUNE 19.

The General Association of Kentucky Baptists convened yesterday at Winchester. Dr. W. H. Felix, of Lexington, was elected Moderator. At the afternoon session the sum of \$30,000 was pledged for foreign missions.

The Pope's condition is reported to have changed for the worse yesterday, and he is very weak. Audiences have been suspended and only the papal physicians were permitted to see him during the day.

District Attorney R. D. Hill will file a suit today in the United States Court praying for the condemnation by the Government of the White Mills distilling plant and other property, including nearly a million gallons of bourbon whiskey.

On account of the illness of Judge Thomas H. Paynter, of the Court of Appeals, the opinion of the court in the injunction suit of the Democratic Committee of Louisville against Allie Young will not be handed down until later in the week.

It is now believed that the recognition of the Serbian provisional Government by the Czar of Russia has put at an end to all possibility of an internal uprising. Public attention is now centered entirely upon the reception of the new King, who from Geneva has telegraphed a proclamation announcing his intention of ascending the Serbian throne under the title of Peter I.

James T. Metcalf, for many years superintendent of the money order system in the Post-office Department at Washington, was summarily dismissed by Postmaster General Payne for forwarding contracts for Government printing to a firm employing his son and whose bid exceeded that of a responsible competitor by \$45,000. There were rumors that another indictment will be returned against A. W. Machen, this time for alleged forgery. The report of Fourth Assistant Postmaster General Bristow, in response to S. W. Talloch's charges, was made public.

In the Jett and White case at Jackson, French, O'Neal and Golden spoke for the defense yesterday. Capt. Hurd and Thomas Marcum spoke for the prosecution. Several clashes occurred between attorneys yesterday, and the case was passed between Judge French and County Attorney Blanton. They were rebuked by the Court, and the trouble passed over, after a few threatening demonstrations. Police Judge Cardwell held Court yesterday at Jackson for the first time in eight months. He tried and fined Gay and Johnson, the men who attacked Gray Haddix, one of the witnesses against Thorp and Crawford, who were accused of burning Ewen's hotel.

JUNE 20.

The Ohio Republican State Central Committee has selected Gen. Charles Dick, of Akron, to direct this year's campaign. Reports from Washington say that the corruption which has been unearthed in the Post-office Department has spread to other bureaus and that only a small portion of the looter's work has been revealed.

The Kentucky Baptist Association, in session yesterday at Winchester, adopted resolutions urging Gov. Beckham to call an extra session of the Legislature to enact such laws as will relieve the deplorable condition of affairs in Breathitt county.

Judge J. E. Robbins, who has recently been appointed State Judge to try Caleb powers, today fixed Monday, Aug. 3, to begin the trial. He has arranged his business matters so as to give the trial his absolute attention.

Gray Haddix, one of the witnesses against Thorp and Crawford, the men accused of burning Ewen's hotel at Jackson, has written a letter to a Lexington paper saying he is afraid to stay at his home because of threats that have been made against him.

The Court of Appeals has granted a new trial to Dr. A. P. Taylor, of Lexington, who was convicted of embezzling and sentenced to three years in the penitentiary, because of his connection with an alleged investment company. The reversal is on the ground of erroneous instructions in the lower court.

Saunders, Mann and Morris, the negroes charged with assaulting John B. Farrow, were tried at Maysville yesterday and were given a sentence of ten years each on the charge of robbery.

E. J. Arnold, proprietor of the defunct Arnold Turf Investment Company, appeared in St. Louis yesterday and gave bond to answer to the seven indictments against him on the charge of embezzlement.

Postmaster General Payne will retire for the stated reason of "ill-health" with the postal standard developments trailing along as the actual cause. It is said he will give up his place on the Republican National Committee as well as Perry S. Heath, secretary of the committee.

Subscriptions to the Ewen relief fund now amount to about \$4,000. The subscriptions sent through the Courier

Journal have reached a total of \$1,240.00. The people of Kentucky are deeply stirred by the events at Jackson, ending in yesterday's failure to convict, and the comments of the State press and of the letters accompanying subscriptions to the Ewen fund indicate a determination to make an end of the disgraceful situation.

The Shelbyville and Danville militia companies were withdrawn and the only soldiers left in Jackson are the members of the provost guard.

Jett and White, in charge of the militia, arrived at Lexington at 6:20 o'clock last evening. Both had been drinking and were in an ugly mood during the journey. Jett was particularly obstreperous and was only suppressed when Maj. Allen threatened to gag him. Their first caller, outside of the newspaper correspondents, was Judge James Hargis, of Jackson. Hargis asked Jett and White to treat them kindly and to spare no expense, adding that he would pay the bills. Jett and White replied that the men would receive the usual treatment accorded prisoners and that neither faction in the Breathitt county trouble need come to him with any suggestion.

Gov. Beckham held a lengthy conference with Inspector Hines and Col. Williams at Frankfort, and Col. Williams returned to Jackson. The Governor was also in telegraphic communication yesterday afternoon with Judge Redwine and Commonwealth's Attorney Cynd.

Sandford Northup, prominent in social and financial life in St. Louis, committed suicide by shooting.

Cuban health reports show satisfactory conditions, except in the case of tuberculosis, which is on the increase on the island.

Thousands of London Jews assembled in Hyde Park to protest against the Kishinev massacre. Strong resolutions were adopted.

Senator Hanna again declares that even if nominated for the vice presidency he would not accept it. He has no White House ambitions, he says.

Several soldiers who were conspicuous in the assassination of the King and Queen of Serbia have been rewarded by King Peter with promotions in rank.

Senator J. C. S. Blackburn, in an interview at Lexington, declared himself in favor of Senator Gorman, of Maryland, as the next Democratic nominee for President.

Methodists of Louisville, Jeffersonville and New Albany will have this week an elaborate celebration of the two hundredth anniversary of the birth of John Wesley.

Leading candidates who opposed the Democratic primary of May 26 now declare that in view of the Court of Appeals' decision they will support the nominees of that primary.

The textile strike at the Lowell Mills has been declared at an end by the Textile Council, and the operatives, numbering about 17,000 men, will return to work as rapidly as the mills resume operations. The outcome is a defeat for the strikers.

A Russian explorer, G. Z. Zonnikov, penetrated into the heart of Thibet, a country from which Europeans have hitherto been barred, and while maintaining a residence there accumulated a fund of information relative to the country and its population, which will prove of great value to geographers and scientists.

County Judge Hargis returned to Jackson from Lexington yesterday after failing in his efforts to have the Fayette county officials take an interest in Jett and White. They will be shown no special favors and will be guarded from friend and foe alike. A "fish fry" given by Judge Hargis by a coterie of Lexington politicians has caused a storm of criticism and all concerned are now denying responsibility for Hargis' presence as a guest. The camp of the soldiers at Jackson will be moved and a force of 100 men kept on duty. A special term of court will be convened in a few weeks to take up the crimes committed since the assassination of Marcum.

The average man is always anxious to know the worst of his neighbor—probably because of the fact that misery loves company.

JUDGE REDWINE'S RULINGS. It certainly appears to an outsider that Judge Redwine has incurred the enmity of the Hargises and Callahan by his rulings. Henry Hurd gave out a statement today publicly thanking Judge Redwine for his impartial rulings since the case was transferred back from Morgan county, declaring that Judge Redwine had acted with eminent fairness in the trial. Judge Redwine appeared to be a good deal annoyed by the failure of the jury to return a verdict. Courier-Journal.

ELEVEN TO ONE.

Jury in Jett Assassination Case Almost Unanimous For Death Penalty.

Jackson, Ky., June 10.—One man, Burns Fitzpatrick, saved Curt Jett's neck from a hangman's noose and nullified the long and arduous work of the past three weeks. Fitzpatrick held out for acquittal against the other eleven men, and when it was seen that the jury was hopelessly hung it was discharged. Fitzpatrick's action had been anticipated by the Commonwealth's Attorney, and by a good many other people here.

The cases were then transferred to Harrison county for trial, and the prisoners were taken to Lexington this afternoon for safe keeping. The cases cannot well be tried in Cynthiana before a month at least, as Floyd Byrd, who has been retained by the Marcum family to assist the Prosecuting Attorney of the Harrison Circuit Court, will be engaged in Lee and Estill counties about two weeks in each county. Mr. Byrd's friends believe he will be unsafe because of the vigorous prosecution he made in the Jett and White murder cases. He declares that he will serve out his term of office, but he has not definitely determined upon his future career.

FITZPATRICK'S "REASONS." The attention of the whole State is, of course, directed to Burns Fitzpatrick, the man who hung the jury. Fitzpatrick was reticent when asked to state the reasons that impelled him to hold out for acquittal. He resented the question as through it were a reflection upon his motives, but finally said that he had a right to his own conclusions and from the time the testimony was in he was convinced of the innocence of both Jett and White. He did not merely doubt that they were guilty, but he was convinced of their innocence. He declared that the arguments of the counsel on both sides failed to make any impression upon him, and that his decision was based upon the evidence and instructions given by the court. In the first place, according to his system of mathematics, the defense has more witnesses than the Commonwealth, counting them by heads. Fitzpatrick said the defense had twice as many witnesses as the Commonwealth, which, however, is not true. He would not say that he believed that Capt. Ewen and the other Commonwealth witnesses lied, but said "that is a question." He was unable to give any definite basis upon which his opinion was formed except upon "the evidence in general."

BYRD HAD HIM SPOTTED. He is thirty-two years old, and is a farmer. No one here appears ever to have heard of him until he was summoned for jury service. He has no public record in Magoffin county and appears not to be known there.

He is a son-in-law of Wesley Barnett, the man to whom Mr. Byrd objected before the jury was selected, and over whose removal from the jury box a bitter fight was made by opposing attorneys. Mr. Byrd did not know when the jury was selected that Fitzpatrick was a son-in-law of Barnett. On the following day, Mr. Byrd learned these facts, and expressed himself then as doubtful of the result of the case because of Fitzpatrick, and perhaps one more man. Barnett remained in Jackson several days after he was rejected from service. He was seen to ride out of town with a rifle.

Fitzpatrick and Barnett were in the first crowd of forty men who arrived here the day before the jury was selected. Barnett was removed from the jury because he was related to men in Magoffin county who had offered money to get certain men on the jury. The defense at the time made a desperate effort to have Barnett retained on the jury. Judge Redwine excused him, however, and from that time Judge Redwine appears to have favored the prosecution in every decision he made.

Judge Redwine's rulings. It certainly appears to an outsider that Judge Redwine has incurred the enmity of the Hargises and Callahan by his rulings. Henry Hurd gave out a statement today publicly thanking Judge Redwine for his impartial rulings since the case was transferred back from Morgan county, declaring that Judge Redwine had acted with eminent fairness in the trial. Judge Redwine appeared to be a good deal annoyed by the failure of the jury to return a verdict. Courier-Journal.

While making up a bed at her home, near Salsersville, Mrs. Ellen Deskins was shot and fatally wounded by the accidental discharge of a revolver falling upon the floor from the bed. Mrs. Deskins died later from the effects of above accident.

Alfred Ruggles, of Greenup, who has been a fugitive from justice since last December, has been arrested at Bellairs, Mich. Sheriff Sam T. Bailey has gone after him, armed with a shotgun. The Farm and Stock.

An exchange says: Persons bothered with fleas can get rid of them by using salt. If they are about the stables, sprinkle salt on the floor, also around the dog kennels, and bathe in salt water. Where salt is used they will emigrate.

The principle we have always followed is that when hogs are ready to go, to let them go. The higher the price the more profit can be made in feeding heavy hogs, but we would not think of growing hogs over 250 lbs., unless we had no youngsters coming on. We believe that when hogs are four cents and under the proper weight at which to sell them is 175 pounds; when they are five cents, 200 pounds; when they are six cents, 225 pounds; and when they are seven cents, 250 pounds—Wallace's Farmer.

Many farmers know that cut hay, or even straw, wet and sprinkled with meal, is a better food for working horses than whole grain and hay. In this shape the nutriment in the feed is easily eaten and digested. Horses do not need water when eating, except as it is put on the chopping hay to make the meal stick to it. The meal being fine, digests perfectly, while much of the nutriment in whole grain is lost. Again, the wasted effect made in digesting the latter is so much detracted from the strength which should go to the work.

Don't run the hens up hill when you want eggs. Don't leave the hen-house unlocked when there is a colored revival nearby.

Don't poke your face near a setting hen. She might miss your nose and peck your eye out.

Don't set scrub hens and expect to hatch thoroughbreds. This is a bad year for miracles.

Don't let your hens scratch your neighbor's flowers and then wonder why she didn't invite you to her last lawn party.

Don't plant grapevines in your henyard unless you do it for their special benefit. Chickens know a good thing when they see it.

Don't hunt eggs while you are starving the hens. If you cannot break up the egg-hunting habit, feed and care for the hens. A chance is all they ask to show you what they can do—Rural World.

Startling Evidence. Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption Cough and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonville, Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by A. M. Hughes, Druggist. Trial bottles free, regular sizes 50c and \$1.00.

OUR NEIGHBORS. N. & W. section men received notice this week of an increase in their wages to \$1.40, to take effect July 1st.

Mrs. Pat Hager and sons, of Pittsburg, are at Round Bottom, W. Va., where they will visit for quite awhile with relatives.

At Grayson Mrs. Marie Ferguson was acquitted of the charge of poisoning Mrs. Louisa Wilson, of Olive Hill. The jury was out four days.

In Circuit Court, at Grayson, George Henderson, aged 18, convicted of killing Frank Underwood, of Enterprise, by shooting him from ambush last fall, was sentenced to eleven years in the penitentiary.

Pikeville, Ky., June 21.—Johnson Reed, colored, who was convicted and sentenced to be hanged for assaulting a white girl, will have a new hearing before the court in September. He was to have been hanged on June 24.

While making up a bed at her home, near Salsersville, Mrs. Ellen Deskins was shot and fatally wounded by the accidental discharge of a revolver falling upon the floor from the bed. Mrs. Deskins died later from the effects of above accident.

Alfred Ruggles, of Greenup, who has been a fugitive from justice since last December, has been arrested at Bellairs, Mich. Sheriff Sam T. Bailey has gone after him, armed with a shotgun. Ruggles broke jail after being sentenced to the penitentiary for three years for manslaughter. Bailey will take him direct to Frankfort.

PE-RU-NA INVIGORATES.

PE-RU-NA REFRESHES.

MISS MAGGIE BECKER, 638 Lake street, Appleton, Wis., writes: "It is with pleasure I recommend Peruna as a splendid tonic to any overtaxed persons. When the mind is wearied the body will soon be worn out also, but Peruna invigorates the body and refreshes the mind. I have also found it a relief in cases of severe headache. We are never without it at home, and consider it a household blessing."—Miss Maggie Becker. Mrs. Christopher Fiehlmann, Amsterdam, N. Y., writes: "I have been sick with catarrh of the stomach and pelvic organs for about five years and had many a doctor, but none could help me. Some said I would never get over it. In your Almanac I read of those who had been cured by Peruna, then I thought I would try it. I did, and found relief with the first bottle I took, and after two more bottles I was as well and strong as I ever was."

Free Home Advice. In view of the great multitude of women suffering from some form of female disease and yet unable to find any cure, Dr. Hartman, the renowned specialist on female catarrhal diseases, has announced his willingness to direct the treatment of as many cases as make application to him during the summer months without charge. Those wishing to become patients should address The Peruna-Medicine Co., Columbus, Ohio.

UNUSUAL CONCESSION.

World's Fair Officials Will Allow Kentucky to Display Coal and Coke in Two Different Exhibits.

Wonderful progress is being made by the Mineral Exhibit Committee of the Kentucky Exhibition Association in procuring specimens for the display in the Mines and Metallurgy Building at the World's Fair in St. Louis next year. At the meeting of this committee, held in Louisville a few days ago, reports were made by the different members representing the different classifications in this department, which showed conclusively that the mineral exhibit from Kentucky at the Exposition will equal, if indeed it does not surpass, that of any other State in the Union.

Mr. Grider had just returned from a preliminary trip through Eastern, South-eastern and Western Kentucky and made a very interesting report on the result of his tour. Mr. Grider's report was embraced in one made by Prof. Norwood and showed that, among others, the following exhibits had already been arranged for:

Coal from Carter, Boyd, Lawrence, Bell, Laurel, Knox, Clay, Daviess, Henderson, Ohio, Union, Hopkins, Christian, Webster and Whitley counties.

Coke from all the coking establishments in the State.

Stone from Meade, Breckinridge, Hancock, Christian, Livingston, Hart, Rowan, Rockcastle, Carter counties and the Big Sandy section.

Lithographic stone from Meade and Rowan counties.

Clays and their products from Carter, Greenup, Madison, Breckinridge, Daviess, Union, Livingston, Hardin and Rockcastle counties.

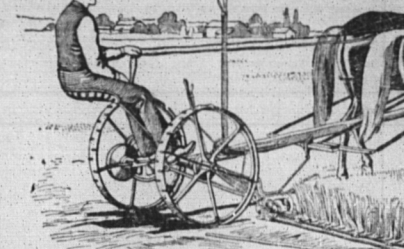

Gems from Elliott county. Iron from Lawrence, Bath, Trigg, Lyon and Livingston.

Interesting to Asthma Sufferers. Daniel Bante of Ottumwa, Iowa, writes, "I have had Asthma for three or four years and have tried about all the cough and asthma cures in the market and have received treatment from physicians in New York and other cities, but got very little benefit until I tried Foley's Honey and Tar which gave me immediate relief and I will never be without it in my house. I sincerely recommend it to all. Sold by Louisa Drug Co."

Catarh and Hay Fever. Liquid Cream Balm is becoming quite as popular in many localities as Ely's Cream Balm solid. It is prepared for use in atomizers, and is highly praised by those who have been accustomed to call upon physicians for such a treatment. Many physicians are using and prescribing it. All the medical properties of the celebrated Cream Balm are contained in the Liquid form, which is fast, including a spraying tube. All druggists, or by mail, Ely Brothers, 56 Warren St. New York.

The Court of Appeals has turned
Allie Young down good and strong.
As we remarked once before, the
only "decent" thing left for Allie
to do is to resign the Chairmanship.
Is he wise enough to do it?

A mob burned a negro rapist in
Delaware this week. The same
thing was done in Illinois recently.
After all the claims made by the
northern people, there is about as
much human nature and "race
prejudice" in them as in the southern
people. The only difference is,
they have fewer victims at their
disposal.

"Good roads or railroads," said
Gen. Howard, "will open up a
country rich in timber and minerals
and capable of great agricultural
results. It is schools more
than anything else that will tend
to suppression of feuds." Thus
spoke one of the prominent men
at the Commercial Convention at
Louisville in reference to Eastern
Kentucky.

From a vigorous editorial in the
Courier-Journal we take the following:

"To the eleven men who stood
out for the death of Jett the State
of Kentucky is greatly obligated.
They did nothing more than their
duty, it is true, but they did it at
a time and under conditions when
to do such a duty demanded men
of heroic mold. They could not
have served their country better
than by their courageous votes to
hang Jett, despite the formidable
influence they faced. The record
they have made will always be an
honor for themselves and their
children, and this honor Kentucky
will ever be glad to recognize.

But the man to whom, more than
all others, Kentucky's gratitude is
awarded in this page of her dark
history is Anderson Floyd Byrd,
the Commonwealth's Attorney,
who, almost alone and unaided,
has fought this case to the very
shadow of the gallows. His conduct
of it has been vigilant, vigorous

and able. That it has been
brave to an unsurpassed degree is
patent to every one at all familiar
with the obstacles and influences
which he so fearlessly defied.
More than once since the beginning
of this trial he has been compared
to Folk, of St. Louis, but Folk,
as splendid as he has been his
work, confronted no such obstructions
and required no such courage
as Byrd. Folk assailed corruption
in city politics, and risked only
the enmity of those who at
worst could make political warfare
on him; Byrd at every step took
his life in his hands. His professional
career, his very existence
were bound up in the limited locality
dominated by anarchists who
ruled by assassination and the
menace of assassination which
they had been sure to make good.
When he determined to do his duty
in this case, notwithstanding this
menace, he had every reason for
assuming that he was ending both
his professional and personal existence."

An important conference in regard
to Breathitt county affairs
was held Monday night in Lexington.
Those who took part in it
were Gov. Beckham, Adj. Gen.
Murray, Col. Murray, Col. Roger
Williams, Judge D. B. Redwine
and Commonwealth's Attorney A.
F. Byrd. All the details of the
conference are not known, but it is
practically settled that a special
term of the Breathitt Circuit Court
will be called about July 20, for
the purpose of investigating the
burning of Ewen's hotel, the attempt
to bribe B. J. Ewen and
other infractions of the law. About
40 of the 100 militiamen now at
Jackson will continue in service at
that place, while the remainder
will be ordered home.

Circuit Judge Osborne has announced
that a special term of his court
will be held at Cynthiana,
beginning July 27, for the purpose
of trying Curtis Jett and Tom
White for the murder of James B.
Marcum. Adj. Gen. Murray
released ten militiamen from service
at Jackson, leaving about seventy-five
soldiers on duty there.

Giving to Good Roads.

E. H. Harriman, the capitalist,
has given \$30,000 toward the
construction of good county roads in
Orange County, N. Y.

That's sensible.
This country is fairly well off
nowadays so far as schools of higher
education are concerned.

As to good roads we lag behind
the world.
Europeans have followed the fine
example of the Romans, the
great road and aqueduct constructors.
In this respect we have followed
the barbarians who made no
great highways.

The lack of road building is the
weak spot in our material civilization.
What will the people of the
twenty-first century think of us
when they read that in our time
whole communities were cut off
from the rest of the world by an
embargo of mud.

We have railroads with no way
to get to them. The farmer has
daily mails, newspapers and tele-
phones to give him the prices current
but no means by which to
market his produce.

It can not be expected that farmers
will build expensive highways.
To build roads is the business of
Government. If the Government,
national, State and local, will make
its appropriations and this fund is
supplemented by the gift of wealthy
men who wish to be real benefactors,
there will be a beginning
of the only solution of the road
problem.

Mr. Carnegie, Mr. Rockefeller
and other wealthy men could push
civilization further forward by giving
a lot of millions for good road
building than in any other way.—

Notwithstanding the fact that John-
son Reed, colored, will not be hanged
tomorrow, the day first set for his exe-
cution, quite a number of people are
coming into town this evening. Some
think Johnson will be lynched before
the Court of Appeals can act upon his
case.

Satan is recruiting his evil forces in
and around Pikeville by securing more
agents to handle his beer and moon-
shine whiskey. He bids fair to reap an
abundant harvest in the near future.

next day they were found together
in the road near Salsersville plod-

supposed they were railroad em-

EAST POINT.

Judge H. B. Rice and a Bailiff
visited our little village last Sat-
urday inquiring into some of the
causes which have given us an un-
enviable name of late. We did not
learn what progress he made; but
the following Sunday was deligh-
tfully quiet and orderly. We can
assure Judge Rice that he has the
sincere thanks and support of the
best people here.

At Paintsville last week we were
asked what East Point will do with
her wholesale liquor business. We
will say that the best three-fourths
of our citizens are disgusted at the
prospect. It is rumored that the
grand opening will be July 4th. If
the business can live six months,
it will then have fair sailing. That
much of drunkenness will so de-
bauch the tipplers that perjury will
be common and conviction rare.

Mr. George Adams has arranged
for a lucrative position after a short
course in telegraphy. He will leave
for college at once.

It is rumored that our schools
will be supplied as follows:—East
Point, Prof. Craft; Hager Hill, Miss
Rhoda Hager; Little Lick, Miss
May Leslie. It seems there is
nothing like the rush among teach-
ers to procure schools as has char-
acterized former years. This is as
it should be. No young man or
woman who is looking after the
dollar should ever be tempted to
teach. Not one in a hundred ever
made a decent living at teaching.

Much less money and time spent
in preparation for other callings
will bring much greater rewards
and more constant and agreeable
employment. The good teacher
has never been paid half that he
earns; and the sorry teacher is dear
at any price.

On last Saturday night sneak
thieves took a horse from D. M.
Hager and a mule from Lyman
Davis. The animals were recovered
on State Road Fork, coming to-
ward home.

Mr. Sherman Blair has removed
from East Point to his new house
on Lick.

Lewis Conley has opened a gro-
cery on Lick, and Charley Friend
promises us another.

W. L. Smith is furnishing the
palling for mouth of Buffalo.

It is rumored for a Johnson Coun-
ty man now of Magoffin, to block
the wheels of justice in Breathitt.
We are not proud of the honor.
Breathitt should be divided among
neighboring counties, as she has
shown herself unfit for self-govern-
ment.

To the most popular feature of the parade—\$1.00.

Prizes will be given in all the contests, most of them cash. The list will be printed on the program for distribution that day.

Efforts are being made to secure an able speaker to make a patriotic address, and it is also intended to have a chorus of selected voices to render appropriate songs.

The parade will start at 8:30 a. m. People from the country are invited to participate. All who will come mounted and take part will be furnished with false faces and flags. Grotesque costumes will be welcomed and will add to the interest. Col. Jay H. Northup, assisted by others, will have charge of the parade.

The following important acts of the District Conference of the M. E. Church, South, recently held at Fort Gay were overlooked in our news matter until now.

The election of lay delegates to the Annual Conference resulted in the selection of M. W. Thomas, S. Casebolt, W. J. Frazier; and J. H. Moore, A. J. Womack and Isaac Fannin, alternates.

Z. H. Moore was licensed to preach, and he with W. R. Vaughn and Jno. L. Vinson were duly recommended for admission into the traveling connection. W. R. Vaughn was also recommended for local deacon's orders.

The next annual meeting of this district conference will be held at Grayson.

A fellow living across the river below Louisa is putting up cows belonging to Kentucky people and charging one dollar to liberate them. He also milks the cows and fails to account for the milk, as the law requires. The cows are put up under pretense of law, but from information obtained he is doing it illegally and is charging more than the law would allow anyway. Also, that he is not entitled to anything unless the animals damage his property. A combined effort is on foot among his victims to prosecute him.

A comparatively slight expenditure of labor would make great improvement in our streets, if used in harvesting the excellent crop of dog fennel, cleaning out some of the clogged ditches intended for drainage, and trimming off the lower branches of shade trees along the sidewalks. The value of some of the new street lamps are almost entirely nullified by the low hanging branches of trees. Stagnant water is standing in a few ditches, endangering the lives of the people living near.

Mr. H. A. Scholze, who has been inspector at Lock No. 2, received an order last week to be ready for duty as an assistant U. S. Engineer on Kentucky river. He will be located at Richmond, near where there is a lock and dam in course of construction. Mrs. Scholze will go to Richmond in a short time. Mr. Scholze has proved very efficient and his promotion is well deserved.

The marshals appointed for the 4th of July parade, and as many of the committeemen and citizens as possible are requested to meet at the city hall Friday evening of this week to arrange the details of the parade.

It costs you nothing to look through our stock and it may save you a good deal of money to do so when you need clothing, gents furnishings, or shoes for men, women or children.

MOORE & JORDAN.

Dr. Boland left Wednesday for Fayetteville, W. Va., where he preached the commencement sermon, June 25th, for the Fayetteville Academy. The Dr. will return in time to fill his pulpit next Sunday.

Died on the Train.

A very pathetic and unusual occurrence took place on the Big Sandy train coming up yesterday morning. It was the death of Mrs. J. F. Frye, which occurred just as the train reached Lockwood station. Not long ago the poor woman was attacked by quick consumption and her decline was rapid. Giving up all hope of recovery she expressed a desire a few days ago to be removed from here home in West Virginia to that of her father, S. W. Porter, who lives on Rockcastle. The trip was accordingly undertaken, but the desire of the unfortunate woman to die at her old home was not realized. Her death was painless and peaceful. She was on a cot in the baggage car. With her were the husband, a sister and brother-in-law. The woman's age was about 30.

Mr. F. T. D. Wallace telegraphed to Louisa for a casket and it was delivered at the train, causing a delay of only a few minutes. The body was taken by way of Peach Orchard to Rockcastle.

Insurance Rebating Illegal.

Insurance Commissioner Chennault, of Kentucky, is after the life insurance companies operating in this state. It is said that rebating by them is being conducted in such a high-handed manner that severe measures will have to be taken to stop the practice. The Kentucky insurance law prescribes a heavy fine for any insurance company, officer or agent thereof, found guilty of rebating in this state.

New Gas Line Accepted.

The new pipe line built by the N. & W. railroad on the Kentucky side of the Big Sandy from Blaine to Burgess has been formally accepted by the Trip's State Gas Company. ROAD ORDERS

Of Considerable Importance Made by the Fiscal Court.

Fiscal Court was in session here as we went to press last week. Mention was made of the order to redistrict the county for road-working purposes, reducing the large number of overseers to a maximum of twenty for the entire county, and paying each as salary a sum not exceeding \$50 per year. The order becomes effective July 1st.

The plan is new. Naturally it is the subject of much discussion, with a difference of opinion manifested as to the wisdom of it. Like most all laws, its success is more dependent upon a strict and intelligent execution than anything else. The overseers should be conscientious, practical and active men, who will see that every road worker puts in the required amount of labor on the roads, where most needed and to the best advantage. Whether we like the plan or not, it is our duty as citizens to comply with its requirements to the end that our roads be improved.

The court ordered that the road machine be brought at once to Louisa and used on the road leading by way of Blaine to the Morgan county line. Next it is to be used from Louisa up Lick creek and the river to the Johnson county line. This is the proper course to pursue—the busiest part of the road should have attention first.

John Cummings was awarded the contract at \$192 for putting a coat of cement around the sandstone foundation of the court house, with a view to stopping the decay which has begun. The work was done this week under the supervision of D. C. O'Neal, special commissioner.

Alexander Lackey and A. J. Garred, committee to refund the bonded indebtedness of the county, reported that they had sold the new bonds to G. W. Gunnell at par. The amount of the bonds is \$66,000, drawing four per cent. interest. All old bonds were retired and cancelled.

CHAMBERS & CO.

A great effort is being made to complete the railroad between West Liberty and Morehead this summer. Mr. E. A. Carr, Manager of the construction of this road, who was here Saturday, says they will have great difficulty in getting work hands and they had been compelled to bring several hundred negroes from Georgia.—Owingsville Messenger.

Children's Day was observed last Sunday by the Baptist Sunday School. The program was rendered at the regular hour for church services in the evening. A large congregation was present and evidently enjoyed the exercises very much.

E. church South, at Ashland, has resigned his charge there, and leaves next week, with his family, for San Francisco, where he will take charge of Centenary church, the finest Methodist church in the city. The change is made in hopes of benefiting the health of Mr. and Mrs. French, they both being sufferers from lung trouble. Mr. French is a very earnest and successful minister and his departure from the West Virginia Conference will cause general regret.

The city and county officials disagree as to whose duty it is to keep up the public roads on the outskirts of Louisa, but within the corporate limits. Can the matter not be gotten into the courts some way so that it should be settled? It is important to have these roads kept in good repair.

Since the above was put in type we have seen the order made by Fiscal Court, providing that the City have the roads put into condition, and if it be decided that the county must pay for it, then this will be done.

A paint that stands the sun: "BLACK MAMMY."

Mrs. N. D. Waldeck entertained the members of the W. C. T. U. last Wednesday evening. Cream and cake were served and each member was presented with a small bouquet, tied with a white ribbon, the emblem of the society. The evening was highly enjoyed by all present.

FALLSBURG.

J. B. Sloan has the contract for building the Odd Fellows Hall at this place and has already begun the work. When the building is completed, situated as it is on the rising ground back of the storehouses and dwellings, it will be quite an ornament to the town of Fallsburg.

Several traveling preachers, I think they call themselves "missionaries," began a protracted meeting here. They have put up a canvass to accommodate a large audience of people. An Italian stone mason by the name of James Francis was drowned near the mouth of Tabers creek last Sunday. He went in the river to bathe and got out in deep water and couldn't swim. They had to drag the river a good while to get the body. James Barrett's daughter, accompanied by Miss Pansy Dingess, both from Hamlin, W. Va., are here visiting relatives. U. E. S.

Ashland, Ky., Jan. 31, 1903. I have used Black "Mammy" Paint and must say it is equal to any or better than any paint I ever used. I think by using it, I saved fifty per cent. at least. I connected a roof to the one on which the Black "Mammy" Paint had been put on three years previous, and in removing paint to make the joint, found the tin in good condition. F. H. Ashland, Ky., Feb. 2, 1903. About four years ago I had an occasion to repaint the roof of my house and stable; my house, at that time, was covered with tin, and the stable was also covered with tin. I bought Black "Mammy" Paint and had it put on. Before that time I had to paint every two years, but since that time, had no occasion to buy anything of this kind, and can cheerfully recommend it to any one. R. H. VESSIE.

Farmers are done harvesting their wheat a report a good crop. Corn is small for the time of year but farmers are not discouraged. Our roads are in a very bad condition and the farmers are the losers, as the time will soon be here when they will go to hauling their crops to market. Prof. C. F. Smith and wife were the happy recipients of twins a few days ago. All are reported doing well. Isaac Cunningham and wife and daughter visited friends at Rush last Sunday. The meeting at Sand Hill closed last Sunday. There were several additions to church and a great deal of interest manifested through the entire meeting. Rev. Gamboe, of Ashland, did most of the preaching and he is conceded to be the most logical reasoner and forceful speaker that ever preached here. He made a great many friends while here. He was accompanied by his wife and two children. Trinity is enjoying a serenity of peace such as it hadn't enjoyed for a long time. The rough necks that caused so much trouble have gone elsewhere or reformed. J. B. Riffe, of Yatesville, was here last week doing some work on the S. & R. telephone line. Warren Dean, who has been confined to his room for several weeks with pulmonary tuberculosis had a slight hemorrhage Monday. Mrs. Emory McKinney, who was reported sick some time ago, died last week and was laid to rest in McDaniel graveyard to wait the resurrection morn. She leaves a husband and nine small children to mourn their loss. Rev. Isaac Fannin preached a very interesting sermon at Trinity Sunday. After preaching he administered the ordinance of baptism to five.

ONE STEP MORE

Will be fatal to the sleep-walker. Will he draw back or will he take the final step? A great many people are in peril like the sleep-walker. They are diseased. The disease is progressing day by day. The time comes when one more step away from health is fatal. The man who has suffered from indigestion or gastric trouble, who has some night to a dinner and returns home to find he has taken that last step from health into disease, which can never be taken back.

To neglect the cure of indigestion or gastric trouble is also inexcusable. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood, stimulates the liver, cures biliousness, and eliminates bilious poisons from the system.

"The praise I would like to give you is Golden Medical Discovery. I cannot utter in words or describe with pen what a relief it was to me. I took three bottles and I felt so good that I stopped being cured. I have no symptoms of gastric trouble or indigestion now."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

You can get the People's Common Sense Medical Adviser, 1008 pages, paper covers, free by sending in one-cent stamps, to pay expense of mailing only.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to find of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uretic acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will find just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., P.O. Box 538, Elmira, N. Y. The regular fifty-cent bottle of Swamp-Root, in all good drug stores, is sold by all good druggists.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Elmira, N. Y., on every bottle.

RAILROAD FIGHT.

Three Companies Struggling for Entrance to Border Coal Field.

The following from the Mingo county Democrat, at Williamson, W. Va., is interesting over on this side of the river, because if the Wabash wins it will probably come over into the Kentucky territory:

"What is by far the most sensational fight that has ever taken place in the state between rival railway companies for the possession of coal lands is the one now in progress between the Wabash, Norfolk & Western and Guyan Valley railway companies for precedence in running a line into the rich coal deposits which lie along Gilbert creek in this county."

"Each of the companies above named has within the past month rushed a full corps of engineers into that section and since that time an exciting race has been in progress. As the matter now stands the Norfolk & Western has a slight advantage over the other companies, being first on the ground. This company has completed a survey from Wharmcliffe to the mouth of Gilbert creek, on Guyan river, a distance of eleven miles. The line runs up Ben creek to the head and includes a tunnel about 1400 feet in length."

"The Wabash, or Deepwater railway company, has a surveying crew at work on a line beginning at the mouth of Spice creek and running to the Wyoming county line to meet another crew coming through from Slab Fork, at Baileyville."

"The Guyan Valley railway company has within the past month surveyed two lines to Gilbert and seems determined to hold its own with the other companies."

"This territory embraces one of the best coal fields in the country. There are five seams of mineable coal ranging in thickness from four to seven. The quality has been fully tested and pronounced to be the very best. The elevation at this point is 2360 feet."

"The Norfolk & Western through the agency of the Flat Top Coal syndicate has control of 160,000 acres of mineral lands and is bound to be first on the ground in order to get the tonnage on the shipment after the mines are in operation."

Worst of all Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newton, Decatur, Ala. "For three years she writes, 'I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered.' For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by A. M. Hughes, Druggist."

All the mean acts of his life are quickly brought to a drowning man or a candidate for office.

BUCHANAN.

Benj. F. Black, of Durbin creek, Boyd county, died suddenly and unexpectedly of angina pectoris on Thursday evening of last week at the home of his son Frank, on Bush creek, near Buchanan. He had suffered some day previous from a smothering sensation and neuralgia in his chest, but felt as well as usual on Thursday and went to Buchanan on business. Just after noon he started home and had not gone far when he was attacked in the same manner as on the day previous and was compelled to stop at his son's. His suffering became intense. Dr. Banfield was called and gave him some relief, but at about six o'clock, while he was sitting up in bed and in the act of taking some soup the neuralgia reached the heart and death was instantaneous. The funeral took place at Kavanagh Sunday. The largest concourse of people ever gathered there attended the funeral, which was preached by Rev. W. B. Ball. Mr. Black was in his 70th year, but a well preserved man. He was one of the very best men in that section, a leader in moral and religious movements. His death will be severely felt by the community.

James Clay, age about 30, died Saturday and was buried in the Ogles burial grounds on Sunday. Consumption caused his death, and also that of his wife, which occurred last spring. Several children are left.

Mrs. Paul Panko, who has been sick for more than six weeks with typhoid fever, is thought to be improving slowly.

Expression of Sympathy.

I wish to extend my sympathy to the bereaved family of Mr. J. M. Williamson, of Old Peach Orchard, whose 16-year-old daughter committed suicide by drowning in Big Sandy river. She was a sweet little girl, loved and respected by all who knew her. Although her life was short, she spent it sweetly until a few weeks before her death, which was caused by the tortures of a brutal negro. It is thought her life became unbearable from fear and torture. Thinking from the explanations given by the negro's attorney that there would be a dismissal of the case, she thought she must end the miserable affair. But it is to be hoped the affair is not ended, and that every thing may be thoroughly solved and the guilty may be punished. It is hoped that the father, mother, brothers and sisters will bear up in this great trial. Her oldest sister, who lives in Columbus, Ohio, will never tire in trying to unravel the mysteries in the case. A Friend.

Necessary to Business.

Here is what some of our most successful men think of advertising:

"I would as soon think of doing business without clerks as without advertising."—John Wanamaker.

"Nothing, except the mint, can make money without advertising."—Gladstone.

"When you pay more for the rent of your business house than for advertising your business, you are pursuing a false policy. If you can do business, let it known."—Franklin.

Frequent and constant advertising brought me all I own."—A. T. Stewart.

WILD WEST SCOUT

And His Thrilling Show at the State Fair.

It will be one of the big free attractions at Owensboro in September.

The Directors of the State Fair, which will be held at Owensboro in September are not only working hard to secure a successful distribution of the \$20,000 cash premiums for live stock, agricultural and domestic exhibits, but they have a keen eye as well to the amusement features and are now engaged in arranging a highly interesting programme which will be announced from time to time, as it is completed.

The first big attraction settled upon is the famous "Broncho John's Wild West Show." It will be free to all who attend the Fair.

As a scout of the plains, "Broncho John" has a place in the history of Indian warfare, and in a startlingly realistic manner he and his band of scouts and Indians will hold up stage coaches, "bust wild bronchos" and give a sham battle between a lone scout and a band of red skins, the scout using his pony as a breastwork.

There will also be automobile races, professional and athletic games, a race between an ostrich and a horse, and a score of other things.

Was Wasting Away.

The following letter from Robert R. Watts, of Salem, Mo., is instructive. "I have been troubled with kidney disease for the last five years. I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." Sold by Louisa Drug Co.

If a quarrelsome man has two ideas in his head they would probably fall out with each other.

His Last Hope Realized.

[From the Sentinel, Gebo, Mont.]

In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterward his camping upon his claim, he encountered much bad water, which together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The season for bowel disorders being at hand suggests this item. For sale by A. M. Hughes.

No one ever repented of having held his tongue."

Paine's Celery Compound

CURES RHEUMATISM.

Rheumatism, which does its terrible work in the muscles, joints, and tissues, is caused by uric acid which gathers in the blood. To get rid of this poisonous acid which produces the irritations, pains, agonies, inflammations, and swellings peculiar to rheumatism, Paine's Celery Compound should be used without delay. No other medicine gives such prompt, cheering, and happy results. It is the only medicine that prevents a return of the dreaded disease. Paine's Celery Compound braces the nerves, the blood is quickly cleared of all irritating poisons, tissue and muscle are built up, and the digestive organs perfectly toned. Do not treat with indifference the slightest rheumatic symptoms; the early use of Paine's Celery Compound will save you weeks and months of suffering. Mr. S. D. Conway, St. Louis, Mo., was permanently cured by Paine's Celery Compound after repeated failures with other medicines and physicians; he says: "I am 64 years of age, and have lived in St. Louis 27 years, and all this time with the exception of three years, I have served in the Engineers' Department as Inspector. Last winter I contracted rheumatism and was laid up. I tried all remedies and doctors, but all failed until I struck Paine's Celery Compound, which has made a permanent cure in my case. I have recommended it to many, and they have used it with the same result."
